DETAILED ACTION

Allowable Subject Matter

Claims 1-33, 38-56 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 4, 7, 18, 20, 21, 33, with the allowable features being; at least one of the first and second substrates is an electrode(claim 1, 18); the polymeric adhesive includes a quaternary ammonium salt(claim 4); the adhesive layer including a polyelectrolyte which includes a salt of a polyacid(claim 7); the specific type of adhesive material used(claims 20, 21, 33); the specific adhesive used(claim 38). Therefore claims 1-33, 38-56 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
